

Vipin Gupta

+91-6388863506 — thevipingupta1@gmail.com — LinkedIn — GitHub — Portfolio

PROFESSIONAL SUMMARY

Computer Science undergraduate focused on software development and engineering, with hands-on experience building full-stack applications, backend services, REST APIs, and database-driven systems. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, and problem solving, with 250+ DSA problems solved and a CGPA of 9.02/10. Proficient in Java, JavaScript, React.js, Node.js, Express.js, MongoDB, and SQL, with a focus on writing clean, maintainable, and practical software solutions.

EDUCATION

Bachelor of Technology in Computer Science & Engineering	2023 – 2027
Noida International University, India	CGPA: 9.02/10
Class XII (Science)	2020 – 2022
Naval's National Academy, Gorakhpur	60.6%
Class X	2018 – 2020
Naval's National Academy, Gorakhpur	82.33%

PROFESSIONAL EXPERIENCE

Python Developer Intern	Jun 2025 – Aug 2025
Infotact Solutions	Remote
- Developed Python-based applications for real-world project requirements using structured programming and reusable components. - Applied Object-Oriented Programming, data structures, debugging, and problem-solving techniques to improve application reliability.	
Open Source Contributor	Oct 2024 – Feb 2025
GirlScript Summer of Code (GSSoC'24)	
- Contributed through pull requests, issue resolution, and feature improvements using Git and GitHub workflows. - Collaborated with contributors and followed structured coding and version-control practices.	

PROJECTS

SafeLink – Safety & Emergency Response Platform	Live Demo — GitHub
React.js, Node.js, Express.js, MongoDB, Socket.io, Mapbox	
- Developed a safety platform featuring SOS alerts, live location sharing, Safety Circle, missing-person reporting, and emergency help requests. - Implemented role-based workflows for Users, Volunteers, and Admins with real-time alerts, notifications, and map-based emergency coordination. - Added offline support and automatic synchronization for critical actions with limited connectivity.	
HealthConnect – Healthcare Management Platform	GitHub
React.js, Node.js, Express.js, MongoDB, REST APIs	
- Developed a centralized healthcare platform connecting Patients, Doctors, and Administrators through role-based access control. - Implemented workflows for appointments, doctor assignment, patient records, and administrative operations using REST APIs.	
AI Response Evaluator	GitHub
Python, NLP, AI Evaluation	
- Developed an AI response evaluation system using custom scoring metrics to analyze AI-generated responses. - Built automated evaluation pipelines with multiple parameters for consistent response quality assessment.	
Advanced File Organizer	GitHub
Python, Automation, File System Management	
- Developed an intelligent Python application for automated file categorization and organization across directories. - Implemented rule-based automation and reusable Python modules to reduce manual file handling.	

TECHNICAL SKILLS

Languages	Backend & APIs
Python, Java, JavaScript, C	Python Backend, REST APIs, API Development
Web Technologies	Databases
HTML, CSS, React.js, Node.js, Express.js	MongoDB, MySQL
Tools & Platforms	Core Concepts
Git, GitHub, Postman, Linux, VS Code	DSA, OOP, DBMS, Operating Systems, Computer Networks
Additional	Development
Automation, Data Processing, Debugging, Problem Solving	Full-Stack Development, Application Development

CERTIFICATIONS & ACHIEVEMENTS

- Neo4j Certified Professional (2025) — Postman API Fundamentals Student Expert (2024)
- Solved 250+ Data Structures and Algorithms problems across LeetCode and GeeksforGeeks.
- Published research papers on AI-Driven Zero Trust Architectures and Artificial Intelligence in Education.
